## NAVIGATING TO THE RIGHT "CIVIL TOWN" SWDV - 3/4/06

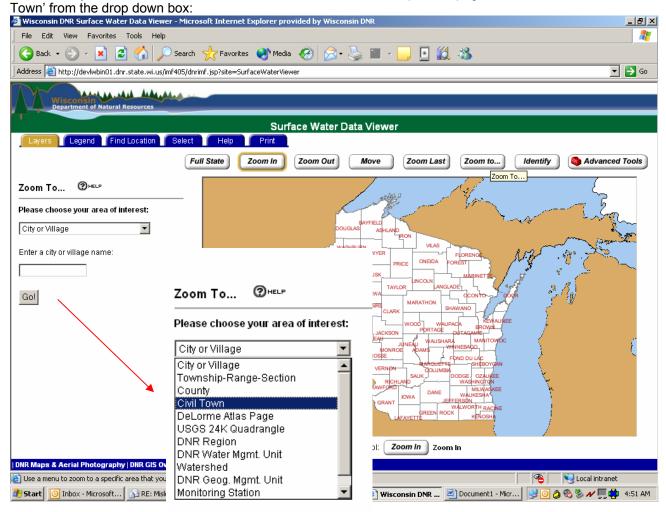

- Step 1: navigate to the surface water data viewer.
- Step 2: click on "layers" to make sure that the layers you need for your project are turned "on".

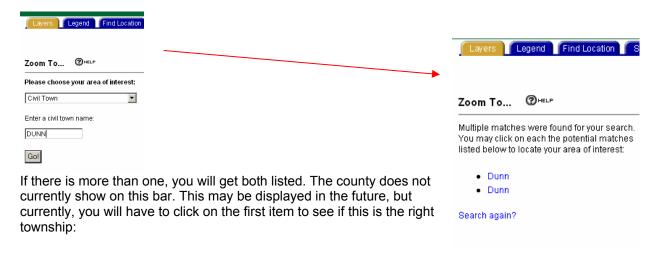

By default, the administrative boundaries will show the following selections:

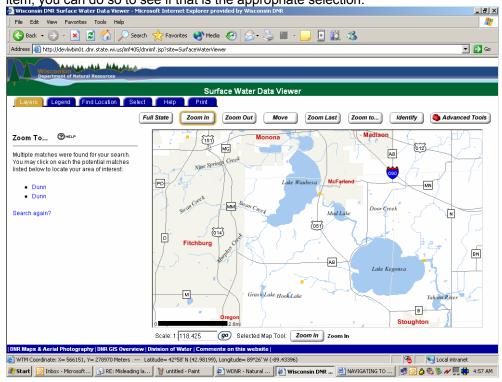

To zoom to your area of interest, click on the "zoom to" bar at the top of the page, then select 'Civil

Type the name of the Civil Town of interest into the open space:

When I click on the first item, the following appears. As you can see the left hand side bar does not change. If you wish to select the next item, you can do so to see if that is the appropriate selection.
